**Notes:**

1. Eligible & Ineligible - refers to the eligibility of a student for operating grants. A student is considered eligible if he or she is either a Canadian citizen, a permanent resident, an eligible international student or a protected person, and is enrolled at an eligible institution, in a publicly-supported program that is approved after meeting the specific eligibility criteria set by the MAESD.
2. Undergraduate and graduate FTEs are counted differently. Undergraduate FTEs are counted as a proportion of a normal full-time load for a particular program and level of registration over an academic year ("all terms"). Full-time undergraduates normally register for two terms per academic year, and those taking a full course load generate 0.5 FTE each term or 1.0 FTE in total. Undergraduate students taking fewer courses than a full course load will generate proportionately fewer FTEs, and those taking more than a full course load or earning credits in a third term generate more FTEs. Graduate students are counted per term. By convention, graduate FTEs are approximated by summing FTEs in fall and summer terms. Graduates normally register for three terms. Full-time graduate students generate 1.0 FTE and part-time graduate students 0.3 FTE.
3. BIUs (Basic Income Unit) - units derived from FTEs. Each institution's BIUs are arrived at by multiplying FTEs by a weighting factor depending on the program of registration and the level of study. Undergraduate weightings in non-medical programs are from 1.0 to 3.0; masters, 3.0 to 4.0; and doctoral, 6.0. BIUs published here do not include imputing adjustments for undergraduate students and minima/maxima provisions for graduates, and **thus should not be used to calculate funding impact**. Refer to *The Ontario Operating Funds Distribution Manual* for more details:

4. Headcounts - every student enrolled is counted as one headcount regardless of registration status or course load or level of study. Fall term full-time headcounts (counted on November 1st) are a commonly used measure for enrolments.
5. Full-time - students taking more than a certain percentage of full load course work (i.e. threshold). Different institutions have different cut-off percentages. It also varies in time for one institution. For example, the full-time threshold for University of Toronto was changed from 80% to 60% in 2003-04, resulting in an increase in full-time students (and a decrease in part-time students). Starting in 2015-16, McMaster adopted 60% of a full time load as a full time student (previously it was 80%).
6. Undergraduates & Graduates - undergraduates are enrolled in undergraduate level programs such as undergraduate diplomas and certificates, and bachelor's degrees; graduates are enrolled in graduate programs such as graduate diplomas and certificates, master's and doctoral.
7. The total numbers include Algoma University and Dominican University College. Algoma became a university in 2009-10. Starting in 2013-14 Dominican's enrolment is included with Carleton University.
